Computime Brochure 2023

Module Breakdown

A little about us

Our Approach to your project

As one of the leading providers of access control systems, our focus is a total commitment to the needs of modern businesses across the UK.

At Computime we have a keen understanding of information and security and how this can impact business success.

With continuous development and customer feedback, our products and services are market leaders in the field. We pride ourselves on remaining close to our roots with local experts on hand at all points of the process.

We don't believe in anonymous call centers. Partnership and collaboration are the essences of Computime.

Dedicated Project Manager

A designated team member will be involved with your project from start to finish making sure timelines are met and goals are achieved

Qualified installations team

Our Fully qualified installation team will ensure all projects are completed to the highest possible standard ensuring a smooth transition between hardware and software

Software setup and configuration

Our technical experts will ensure your system is configured and populated to your exact specification ensuring that you are up and running from day 1

Training

All our packages come with full and comprehensive training allowing you to get the most out of your system

Ongoing Support

We have a full technical support team on hand to provide support and additional training as and when you need it.
